

RCRA REVISION CHECKLIST 123

Land Disposal Restrictions;
Renewal of the Hazardous Waste Debris Case-by-Case Capacity Variance
58 FR 28506-28511

May 14, 1993

(RCRA Cluster III, HSWA provisions)

Notes:

1) This is the fifth rule addressing hazardous debris and soil contaminants with Third Third wastes. Revision Checklist 78 (55 FR 22520; June 1, 1990) established a national capacity variance for certain hazardous waste soil and debris at 268.35. Revision Checklist 83 (56 FR 3864; January 31, 1991) amended 268.35(d) to also address mixed radioactive hazardous waste and amended 268.35(e) to address additional wastes. Revision Checklist 103 (57 FR 20766; May 15, 1992) established a case-by-case extension, until May 8, 1993, for contaminated debris only. Revision Checklist 116 (57 FR 47772; October 20, 1992) clarified that the case-by-case extension applied to mixed radioactive hazardous waste. This current rule extends, until May 8, 1994, the case-by-case extension for hazardous debris promulgated by the October 20, 1992 final rule. It also clarifies the extension by addressing mixed radioactive hazardous waste debris separately from other debris. The case-by-case extension for hazardous soil retains the May 8, 1993 deadline as specified in the October 20, 1992 rule, but is also clarified. States that have already adopted any of the previous rules addressing hazardous debris and soil should adopt this rule as soon as possible. States that have not adopted Third Third regulations should adopt this rule when adopting the other Third Third rules.

2) Although reprinted in the final rule addressed by this checklist, the 268.35(e) introduction did not change and was not included on this checklist.
